QURBANI FOR PALESTINE

FAQs

“It is neither their meat nor their blood that reaches Him, but your piety.” Quran 22:37

a sacrifice of mercy and survival

This Eid ul-Adha, Palestinian families in the region, especially in Gaza face a reality unlike any other. With the collapse of local food systems and the **loss of nearly 90% of the region's livestock**, the traditional act of Qurbani has become nearly impossible to perform locally.

At iF Charity, we believe that even amidst siege and hardship, the Sunnah of Ibrahim (as) can continue and bring nourishment and joy to the most vulnerable. By using **tinned Qurbani meat**, we are providing a life-saving solution that bypasses the lack of electricity, refrigeration, and fuel in Gaza. Your sacrifice is processed with the utmost Shariah-compliance, sealed for longevity, and delivered as a high-protein lifeline to families who have been deprived of meat for months.

FREQUENTLY ASKED QUESTIONS

1. Is tinned Qurbani Shariah-compliant?

Yes. Your religious obligation is fully met. We ensure that all sacrifices are performed during the prescribed days of Eid ul-Adha. The Udhiyah will be performed according to strict Islamic guidelines. The meat is then immediately processed, tinned, and sealed to ensure it reaches Gaza in a state that is both Halal and healthy.

2. Why donate your Qurbani through iF Charity?

Because your qurbani will:

- **Revive the Sunnah:** Honour the sacrifice of Ibrahim (as).
- **Combat Malnutrition:** Provide essential protein to those facing acute hunger.
- **Ease Financial Burdens:** Livestock prices are at an all-time high; your donation provides meat to those who could never afford it.
- **Transparency:** Every step of the process, from slaughter to distribution, is documented to ensure your Amanah is delivered with integrity.

3. Why are you sending tinned meat instead of fresh meat?

The war in Gaza and in the wider region has left infrastructure devastated. Currently:

- **No Refrigeration:** Constant electricity shortages mean fresh meat would spoil within hours.
- **No Fuel:** Many families lack the gas or wood required to cook raw meat.
- **Ready-to-Eat:** Our tinned meat is pre-cooked and ready to consume, making it the most practical and dignified solution for displaced families living in tents or ruins.

4. Why can't the Qurbani be performed inside Palestine, especially in Gaza?

The livestock population in Gaza has been decimated; cattle, sheep, and goat herds are almost entirely gone. With borders frequently sealed, importing live animals is currently restricted and unsustainable. By performing the slaughter in other countries we can guarantee the quality and quantity of the meat while ensuring the logistics of canning are handled in certified, high-standard factories.

5. How does the meat actually get into Gaza?

We work in partnership with other trusted charities and international agencies. Once the meat is tinned and preserved, it is shipped to entry points such as Jordan or Egypt. From there, it is transported via aid corridors directly into the Gaza Strip for distribution to the families who need it most.

6. How long does it take for the meat to be distributed?

While the sacrifice happens on the days of Eid, the canning, shipping, and border clearances take time. Under normal conditions, the tinned meat reaches the beneficiaries within **60 to 180 days**. This ensures that families receive high-quality protein not just during Eid, but throughout the year when food shortages are most acute.

7. How much meat is in each tin?

Each tin contains **800g** of high-quality meat. This is a substantial amount, designed to provide multiple nutrient-dense meals for a family.

8. How much should I donate?

Your donation will help deliver Qurbani directly to Palestinian families offering them nutritious meat during Eid and beyond. Your contribution provides protein, dignity, and a reminder to the people of Gaza that they are not forgotten.

Qurbani for Palestine: £155

Equivalent Impact = 1/7
Udhiyah Share (22 Tins)

Tinned Meat Distribution: £75

11 tins of meat distributed amongst the needy

Household Tin Pack: £35

5 tins of meat for a family in need
